COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

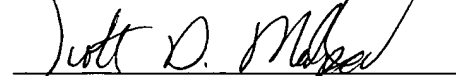

Sir:

In the Examiner's Statement of Reasons for Allowance attached to the Notice of Allowability, the statement indicated that the prior art fails to teach or suggest a display system where an information representing different display modes of color purity or brightness are provided in response to turning on the power of the device.

In response to this statement, Applicants respectfully wish to point out that in claim 23, color purity is changed to obtain a plurality of different kinds of displays modes, and in claim 24, the color purity is changed to exchange a display mode with priority on purity and a display mode with priority on brightness.

Applicants' undersigned attorney may be reached in our Washington, D.C. office by telephone at (202) 530-1010. All correspondence should continue to be directed to our address given below.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Scott D. Malpede", written over a horizontal line.

Attorney for Applicants
